With regard to Todd Braschler Ministries...

It is with great pleasure that I recommend Todd to your church's plans for ministry motivation and development. Todd recently spent a weekend with the churches in our region and some individual time right here at Tri-County. We were so blessed for the experience.

Todd's passion and enthusiasm is contagious. He possesses a broad range of interests and abilities, but his inspiring talent musically, and his heart for ministry development and assimilation, make his presence a powerful catalyst for connecting people to service in God's kingdom.

I was especially impressed with Todd's foundational premise to God-honoring ministry. He emphasized that until a church and its leadership embraced a broken heart for the lost and reflected that heart in vision and strategy, no amount of resources and energy would make the impact God desires. I couldn't agree more!

Don't hesitate to contact Todd for more information and get a sense of his heart for God and His kingdom. Our people loved him right from the start—and so will yours!

Sincerely,

David E. Bish
