Wichita, KS 67205-1667

Dear Jill,

Young and old said it, new to the church and regular members said it too, "Todd really touched my life today." His beautiful, rich high tenor voice captures your attention immediately and helps lift you before the throne of God in worship and majesty. Todd didn't stop there but went for the heart of the people. He communicated that they are a part of God's dreams and not only are they worthy as a human being but they are also forgiven in Christ. Todd clearly informed us that even though we're all scratched and dented by life and our choices, God still sees us worthy to do his work.

We laughed as Todd humorously told personal stories we could identify with. We shed tears as he made his point that we all are a part of God's planning and he's not finished yet.

For me as pastor I was so blessed because Todd built up the people and affirmed them in Christ, and equipped them with the truth of who they are in Him. As one of my leaders said, "We need to have him back once a quarter."

In His Grip,

Tim Kraft
Senior Pastor
